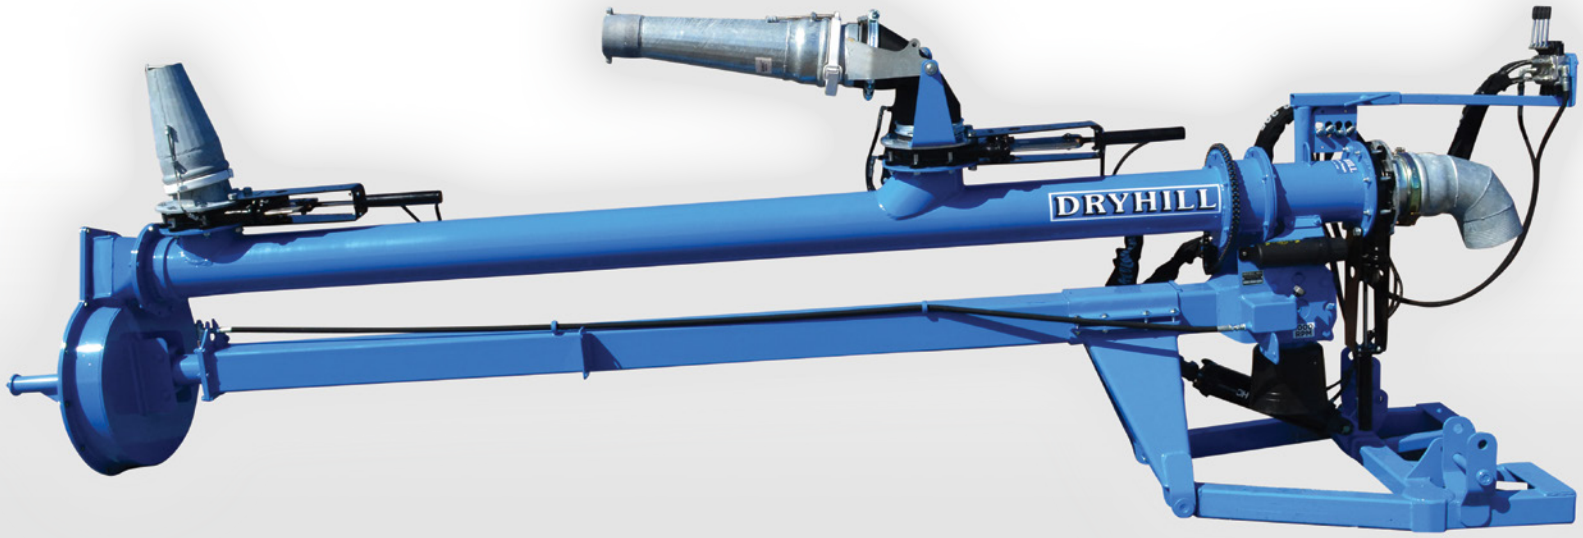
Vertical & Variable Depth Pumps

High Volume Liquid Manure Handling Equipment



DRYHILL Mfg

Superior Performance ▪ Outstanding Reliability

Vertical Pumps

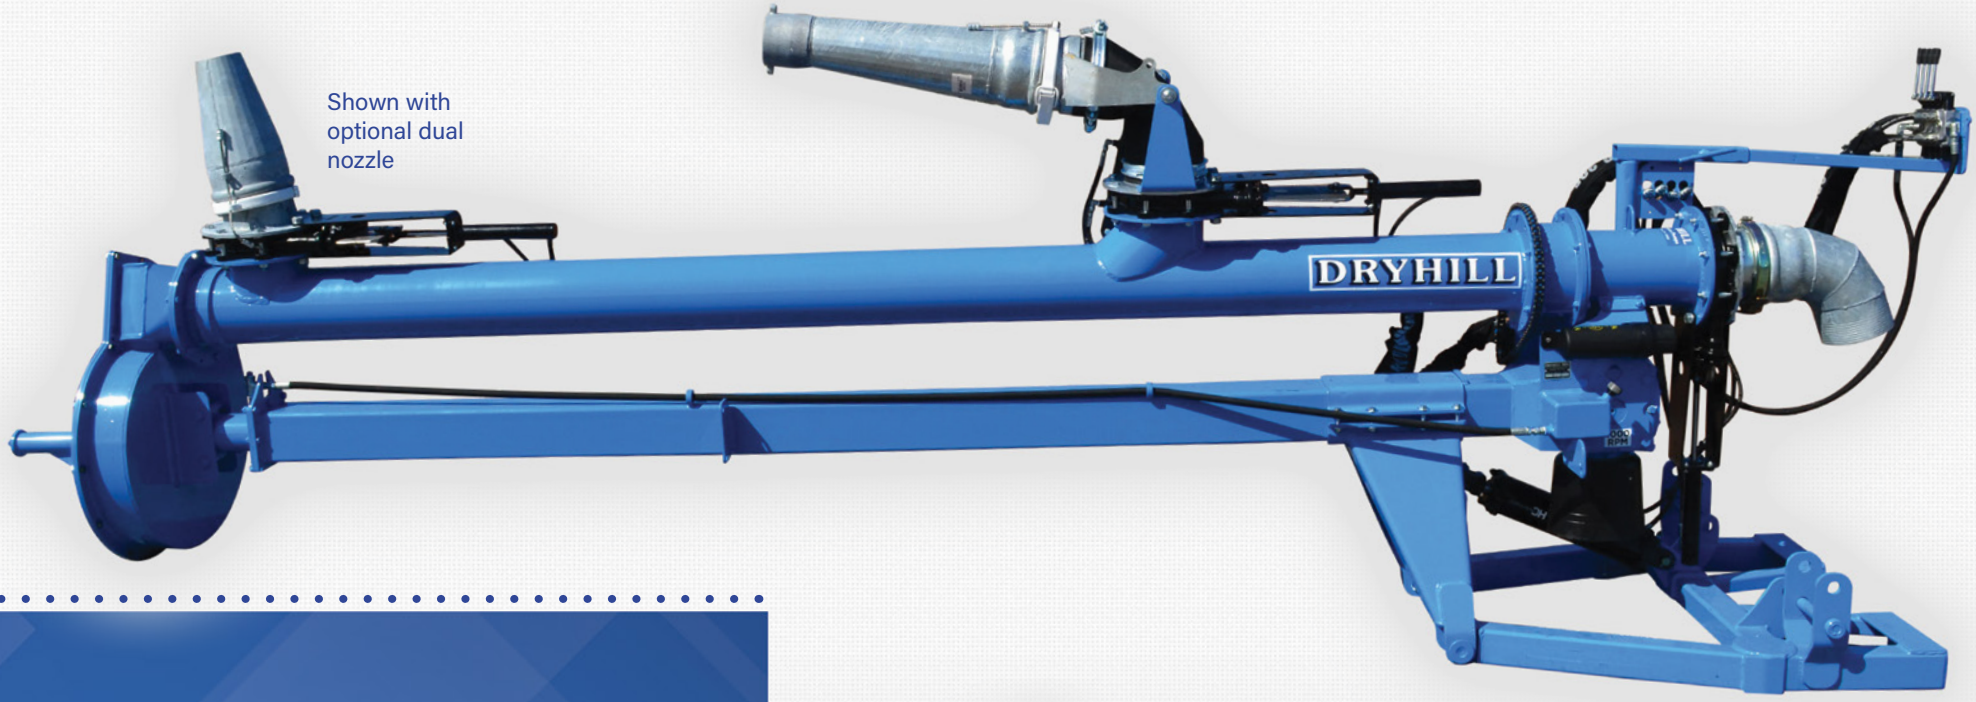
All pumps are available in 6", 8", or 10"

DH220 Two Point Pit Pump

The new two point style is set up for quick hitch hookup and the new heavy duty gearbox provides better reliability.

Key features

- Optional hydraulic control
- Available in 6" or 8" nozzle
- Optional dual nozzle
- High velocity agitation nozzle with a 5-8 inch opening for max efficiency
- Anti swirl device provides max velocity and precision
- 270° horizontal rotation with 80° vertical hydraulic articulation
- Standard heavy duty PTO #55-8" -- #44-6"
- Pit depth of 6, 8, 10, or 12 feet
- Dual agitation available
- Oil bath bearing housing



Shown with optional dual nozzle

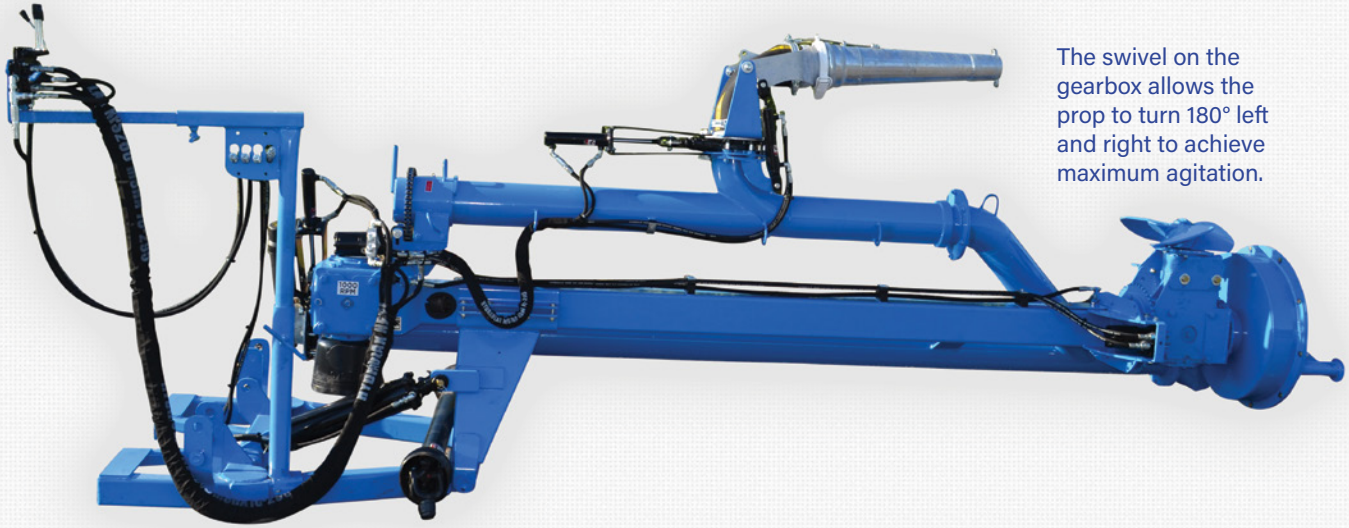
HP	Impeller	Discharge	Ratio
175	22"	8"	1.1:3.5
150	21"	8"	1.1:3.5
125	20"	8"	1.1:3.5
100	20"	6"	1.1:3.5
90	18"	6"	1.1:3.5

DH Curved Impellers

Shredder blades break up large chunks.
Self cleaning impeller blades.
Curved impellers are available for water based waste, only using 25% less power without losing perfomance.

DH255 Two Point with Propeller

Available in 8', 10', or 12'
Tilts and slides to allow access into pits with smaller openings.
Ideal for road transport.
Comes with gearbox and 20" propeller, with capability of moving left to right for better agitation.
Available in 6" and 8"
*Available in a trailer model DH265



The swivel on the gearbox allows the prop to turn 180° left and right to achieve maximum agitation.

DH210 Trailer Hitch Model

6' through 16'

Pit Pump Models

DH600 - 6"

DH800 - 8"

6-10 and 8-12 shown
Available in 12-16 model
Available in 10"

Optional dual nozzle

Available with prop

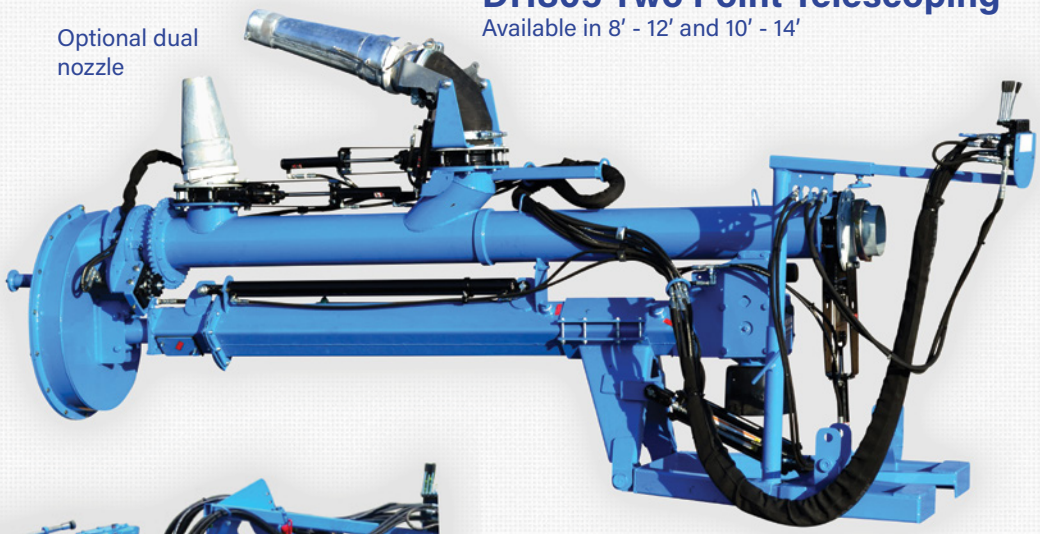
Shown with optional remote control PORACO

Variable Depth Telescoping Pumps

DH805 Two Point Telescoping

Available in 8′ - 12′ and 10′ - 14′

Optional dual nozzle



DH851 Propeller Pump

6-14 and 8-16
Propeller pump with telescoping beam and lift axle to achieve 8′ pit increments.

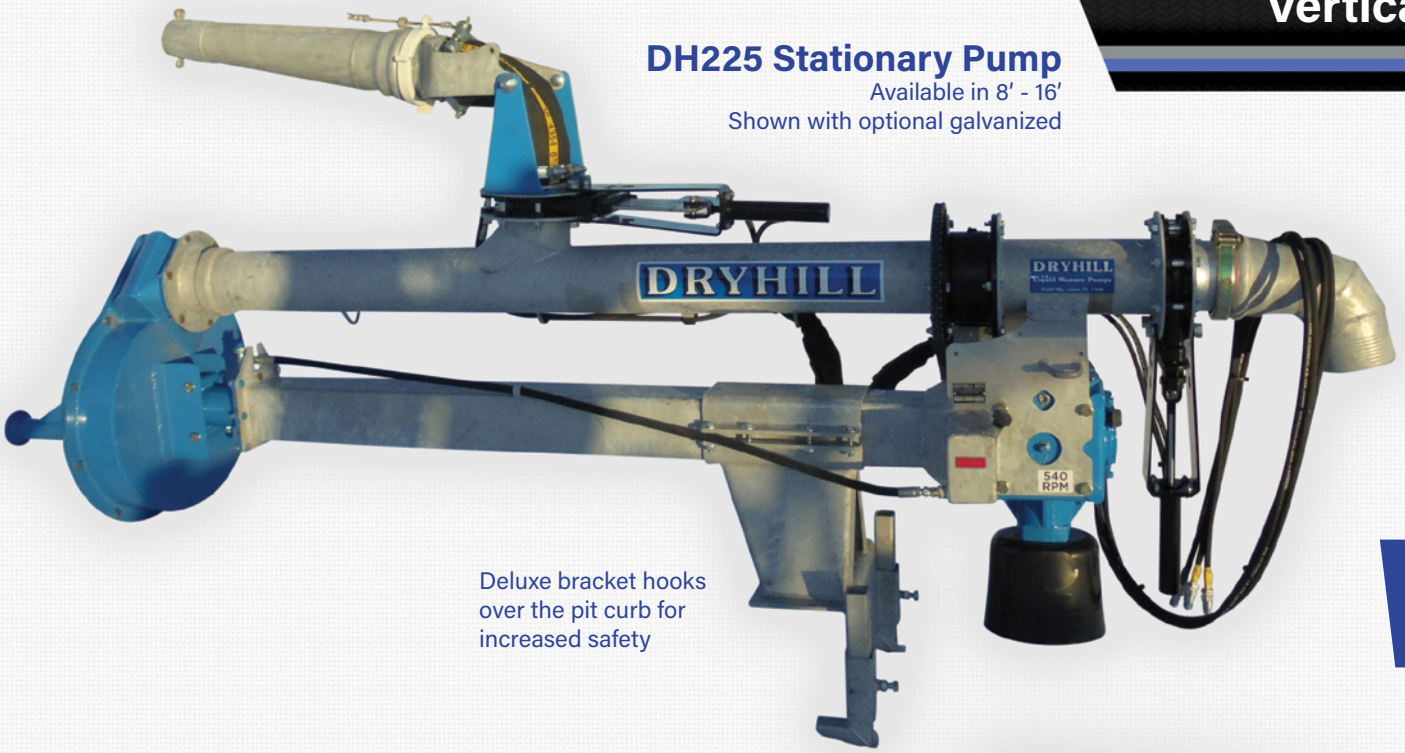
DH815 Pump

Telescoping beam and lift axle to achieve 8′ pit increments
Available in 6-14 and 8-16

Vertical Pump & Pump Trailers

DH225 Stationary Pump

Available in 8′ - 16′
Shown with optional galvanized



Deluxe bracket hooks over the pit curb for increased safety

DH3729 Two Point Pump Transport Trailer

Holds 8′ to 12′ pumps
Two point hitch

Fill Pipes & Misc.

Dryhill Fill Pipes

A trailer mounted fill pipe loads slurry faster and with less mess. Fill a 6600 gallon tank in less than 1 minute. The fill pipe is tall enough to fill a 9′ tall spreader and it folds down for transport. Features a 10″ elbow with air vent to reduce foaming.

DH150-A

Available in 25′ or 30′ pipe length
Available in aluminum or galvanized steel with a 6″, 8″, 10″, or 12″ pipe diameter

Fill Pipe Only

The aluminum or galvanized pipe is supported on adjustable legs. Available in 6″ or 8″ diameter.

Y-Valve Trailer

Technical Information

Power

- PTO Power 6", 8", and 10" discharge
- Weasler Series 44 PTO shaft and 55 PTO
  540 RPM 1.375" x6-spline
  1.375" x21 / 1000 RPM 1.750x20
- PTO with Pump - 55#=8", 44#=6"
- Impeller Speed - 730 RPM
- Gearbox - 1.35:1 reversible for 540 or 1000 RPM input

Options

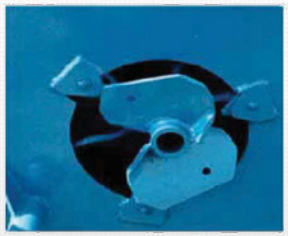
- AR500 Impeller housing and impeller
- Hydraulic Spool Valve Kit
- Dual Nozzle
- Galvanized

Pump Size

	2-Points	Trailer	Stationary
Pump Size	6, 8, 10 and 12 ft.	6' to 16'	6 to 18'
Impeller Speed	730 RPM		
Top & Bottom Nozzle	6" to 3.5" tapered for 6" and 8" x 5" for 8"		

Pump Accessories and Options

AR500



The impeller blade, impeller housing and inlet plate of all impeller kits can be upgraded to AR500 steel for use in highly abrasive materials such as sand. AR500 is Abrasive Resistant Steel.

DH3427 Articulating Nozzle Bracket

High Pressure Option

P03183 Tripod

Reliable Agriculture Equipment

- Vertical Manure Pumps
- Adjustable Pit Pumps
- Slurry Store Systems
- Fill Pipe on Wheels
- Lagoon Pumps
- Suction Pumps
- Propeller Agitation
- Truck Mount Pumps
- Bale Grabbers
- Bale Wagons
- Hose Reels
- Stationary PTO Pumps
- Custom Products
- Boom Kits
- Electric Transfer Pumps

Units in stock and ready to go
